

K.R. Mangalam University

K.R. Mangalam University is located at wonderful location with magnificent view of Aravalli hills. The campus is beautiful having all facilities and resources for conducting learning environment. The University offers a large number of UG, PG and Doctoral programs in Applied Sciences, Engineering, Computer Sciences, Pharmacy, Business Management, Education, Media Studies, Law, Governance, Architecture, Hotel Management, Agriculture etc.

University has an excellent infrastructure with state-of-art laboratories, computer labs, library and campus wide Wi-Fi facility. The University is ably led by the Chancellor Prof. Dinesh Singh, who is a great visionary and educational administrator. VC Prof. P. Prakash and Pro-VC Prof. P. Tripathi, ensure innovative pedagogy quality of teaching and research.

K.R. Mangalam University has been a niche in the learned faculty members from all fields. The University has been organizing many National and International events in different areas funded by reputed government/non-government agencies.

About FDP

Faculty development program intends to facilitate up-gradation of knowledge and skill development of faculty/corporates in active thrust areas. Training in Artificial Intelligence and Machine Learning will bring the required transformation towards research and development. The department of Computer Science and Engineering are taking an initiative to train the keen learners for entrepreneurial challenges in the field. This FDP will prove to be a launch pad for building successful and satisfying career for educator, researcher and corporates. We will continue to strive to make the FDP a rewarding experience in this active sector of development.

Feedback and Valediction

Report on Faculty Development Program on Artificial Intelligence and Machine Learning: A need of an Hour.

Department of Computer Science and Engineering- School of Engineering and Technology, K R Mangalam University, Gurugram organized five days online faculty development program on "Artificial Intelligence and Machine Learning: A need of an Hour" held during 26-30th July, 2021. The objectives of the FDP are to train our faculty, researchers and technocrats to solve issues address by artificial intelligence and machine learning, creation of new knowledge, develop robust research echo-system in Machine Learning and AI. In this FDP, various architectures, techniques and algorithms of ML and AI and various advanced solutions created by professors of esteem universities and industries based on IT Sector, are to be incorporated for advanced knowledge for various technocrats for future applications. We have received registrations across India. Due to limitation of online platforms and smooth conductions of the FDP, we have selected only 13 delegates from various universities, colleges, industries across India and Abroad for the FDP. We have invited renowned and well-experience resource persons namely,

Dr. Pawan Whig , Vivekananda Institute of Professional Studies, New Delhi, Dr. Pradeep Kumar, Maulana Azad National Urdu University, Hyderabad, Dr. Kiran Kumar- University of Petroleum and Energy Studies, Uttarakhand, Dr. Anand Nayyar- Duy Tan University- Vietnam, Dr. Sudhir Sharma- IITM, New Delhi, Dr. Vikas Thada- Amity University, Ms. Dikha- IBM, Mr. Sunil Kumar- University of Petroleum and Energy Studies, Uttarakhand, Dr. Minakshi Memoria- Uttranchal University, Uttarakhand, Dr. Yugal Kumar- Jaypee University, Mr. Gaurav Srivastav- Chandigarh University, Dr. Neelu Jyothi Ahuja- University of Petroleum and Energy Studies, Uttarakhand, Mr. Vishwas Soni- Samatrix headed the session of the faculty development program. The resource speakers have been shared their findings, facts, and demonstration of various new solutions developed by them using ML and AI in the area of healthcare, education, agriculture, Convolution neural network and computer vision, image processing, digital twins, Data clustering, Dimension reduction, outlier detection and data visualization along with hands-on session. Various solutions have been demonstrated using technologies of Machine Learning and Artificial Intelligence by resource persons.

The valedictory function organized on 30th July, 2021 with a thanks note from senior members from the school of Engineering and Technology.

At the end of the FDPs, delegates are able to

- To understand fundamentals, technologies, architecture, algorithms of ML, and AI with its applications.
- To aware various hardware and software platforms to implement any future solutions based on ML, and AI.
- To identify of optimized algorithms, technologies to develop any future applications.
- To explore various research opportunities and challenges in the field of ML, and AI and its applications.
