A health camp was organized by NSS – KRMU in collaboration with Civil Hospital Sohna and Red Cross Society, Gurugram in Lakhuwas village from 11:00am onwards. Six doctors and one physician along with 20 NSS volunteers were present in the camp. The main purpose to organize the camp was to provide initial care to people of Lakhuwa village in life-threatening situations which replicate the unique strengths and goals of medical ethics. The camp was organized in three sessions.

In first session, villagers attended this camp to get free check-up (eye test, sugar, blood pressure, hemoglobin) and treatment where the team of doctors from Civil Hospital Sohna did the health test of the villagers. Getting the appropriate kind of health checkup is vital for every human being and while considering it, some important factors like age, lifestyle, family background, and risks are taken into account. Because health examinations and tests at the early stages of the illness can help to cure it faster and save a life before it can cause any damage.
