Content

The main aim behind the running the anti drug awareness campaign was to spread awareness between people and villagers of the ill effects of drug addiction and to help them better understand how to say no to drugs and how to overcome the urges to take drugs

Those who were facing problems because of family members who were into these kind of stuff also came forward to us to discuss their issues and know what all was available to them in order to get their affected member's life and their family life back on track again.

We began our journey by travelling to Sohna Bus Stand there we found many people who were smoking and chewing gutka and other vile stuff. We started by talking to people there and asking what is it that they were doing and why they were doing it. Late we went to the SDM office of Sohna and got the posters we had made to be published at notice boards of the SDM office.

Before leaving the bus stand we also had a talk with other people around the SDM's Office who told us about various people they knew who had passed away due to drugs and how they wished if someone could have informed them about these de-addiction centers beforehand maybe they would still be alive today. During our visit to the bus stand a few things became clear to all of us that Drugs did break families apart and no one should suffer because of the affects of drugs anymore. Therefore, after promoting the cause for which we stood people also appreciated our efforts and we went on ahead to our next destination Gamroj Toll Plaza.

At Ghamroj toll Plaza we had a small meeting with the manger of the toll office and with due permission our posters were also advertized at the notice boards as well. After that we talked with the officials at duty and got the chance to hold our posters at the toll gates without interrupting traffic to spread awareness about our cause 'Say No to Drugs; Say Yes to Life'.
