Report on

Poster Making Competition on Clean Energy for a Green Planet

Date: 5th June 2024

Venue: B121, B Block

Event Type: Competition

Mode of Activity: Offline

Target Group: NSS Volunteers and KRMU Students

Coordinators: Neeraj Kumari (NSS Coordinator)

Organized by: NSS, K.R. Mangalam University, Gurugram

Participants: 35 NSS volunteers and KRMU students

Introduction:

World Environment Day is celebrated annually on 5th June to raise global awareness and encourage action for environmental protection. In alignment with this year's theme, "**Clean Energy for a Green Planet**", NSS at K.R. Mangalam University organized a **Poster Making Competition** to engage students in creative and critical reflection on renewable energy solutions and sustainable environmental practices. The event aimed to sensitize young minds to the importance of transitioning from fossil fuels to clean energy alternatives such as solar, wind, and bioenergy.

Objectives:

- To raise awareness about **clean and renewable energy solutions** for environmental sustainability.

- To encourage students to express their creativity and understanding of **energy transition** and climate action.
- To foster a sense of responsibility towards **reducing carbon footprints** through sustainable practices.

Content:

The event began with a welcome address by **Dr. Neeraj Kumari**, who highlighted the global significance of World Environment Day and the role of clean energy in combating environmental degradation. She discussed how **energy efficiency, solar power adoption, and sustainable resource use** can significantly reduce pollution and mitigate the effects of climate change.

Participants were briefed on the poster-making guidelines:

- Posters must reflect the theme “**Clean Energy for a Green Planet**”.
- Maximum time allotted: 30 minutes.
- Posters must be original and impactful.

Dr. Neeraj also emphasized the importance of waste-to-energy initiatives, energy-efficient technologies, and community participation in achieving India’s clean energy goals. She inspired students to use their art as a tool for awareness and action.

Event Outcome:

- Students gained deeper insight into clean energy solutions and their role in sustainable development.
- The activity encouraged participants to advocate for renewable energy adoption and energy-efficient lifestyles.
- The competition aligned with SDG 7 (Affordable and Clean Energy) and SDG 13 (Climate Action) by fostering awareness and behavioural change.
- The event contributed to the university’s commitment to sustainability and environmental responsibility.

Conclusion:

The poster-making competition was a resounding success, showcasing the **creativity, critical thinking, and environmental consciousness** of the participants. Winners were announced:

- 🏆 **1st Prize:** Ms. Anuvanshika
- 🥈 **2nd Prize:** Mr. Aryan
- 🥉 **3rd Prize:** Ms. Archana

Dr. Neeraj extended her gratitude to all participants and organizers for making the event impactful and inspiring.
