Introduction

On the brisk morning of 7th February 2025, students from the School of Engineering and Technology embarked on an educational journey to the Delhi Mega Book Fair, the fair aimed to celebrate literature, promote reading habits, and provide a platform for publishers, authors, and book enthusiasts to converge. The excursion comprised 49 students accompanied by two faculty members, ensuring a safe and enriching experience for all attendees. The students belonged to various academic programs, reflecting the diverse interests and backgrounds within our institution.

Activities: Upon arrival, the students were greeted with an expanse of vibrant stalls adorned with an array of books ranging from fiction to non-fiction, academic to recreational. They eagerly explored the aisles, engaging with publishers, authors, and fellow book lovers. The fair offered a plethora of activities and attractions, including:

1. **Author Talks and Panel Discussions:** Renowned authors and literary figures graced the event, captivating audiences with insightful discussions, readings, and book signings. Students had the opportunity to interact with their favorite writers, gaining valuable insights into the creative process and literary trends.
2. **Book Launches and Exhibitions:** Several publishers unveiled their latest titles, enticing

3. readers with fresh narratives and innovative storytelling. Students explored thematic exhibitions showcasing diverse genres, cultures, and literary movements, broadening their literary horizons.
4. Workshops and Seminars: Educational workshops and seminars were conducted on various topics such as writing techniques, publishing industry insights, and career opportunities in literature. These interactive sessions fostered intellectual growth and encouraged students to pursue their passion for writing and storytelling.
5. Cultural Performances: The fair also celebrated the rich tapestry of Indian culture through captivating performances including music, dance, and theatrical presentations.

The excursion to the Delhi Book Fair proved to be a rewarding and memorable experience for the students of the School of Engineering and Technology. It not only ignited their passion for reading and writing but also broadened their intellectual horizons and cultural understanding.
