Vice Chancellor's Message

Prof. Chandra Shekhar Dubey
 Vice Chancellor
 K.R. Mangalam University

Dear students,

The world of 21st century is changing at an accelerated scale. It is a challenge for educators to cope with the changing world order and prepare their students for the future. To keep all these changes in mind and give space to imagination, our school of Journalism and Mass Communication students and faculty members release an April- June 2023 issue of KRMU Times.

It unfolds a wide spectrum of creative skills which includes not only writing but also the designing of the News letters.

I convey my heartiest congratulations to entire team of KRMU Times for their wonderful endeavor.

With Best Wishes!

From Editor-in- Chief Desk

Prof. (Dr.) Neeraj Khattri
Dean, SJMC
K.R. Mangalam University

Dear Students & Colleagues,

Welcome to the April-June 2023, Issue of KRMU Times. This News letter is a practice letter of School of Journalism and Mass Communication students. They cover creative writing, innovative ideas, reports and pictures of various events and programs organized by University School of Studies.

I am confident that this newsletter will definitely upgrade the knowledge of readers. The feedback of the reader works as a torchbearer and gives motivation to our budding journalism. For this particular issue of April-June 23, I congratulate editor and his entire editorial teams' member for their wonderful efforts.

As you know the KRMU Times act as a bridge between you & me and delighted to connect with you, every quarter their wonderful initiative. Finally it is requested to our esteemed readers to do share KRMU Times with their friends, relatives, Peer Groups and family members.

Wishing you a very Good luck!

SOMC organized Extension Activity on Management Skill development

31st May 2023, the extension activity was organized on "Managerial Skills" by School of Management and Commerce (SOMC) in collaboration of Red Cross Society. The extension activity aims to provide participants with the strong managerial skills in their personal life which can greatly contribute to your overall effectiveness and success, regardless of gender. The session touched on various aspects of life like time management, decision making, communication, leadership, emotional intelligence, financial management and self-care. The objective of this extension activity was to enhance and develop managerial skills among female residents of the village, empowering them to effectively manage their personal lives, professional fronts, make informed decisions, and contribute to their overall well-being.

Activities Conducted

Understanding the Time Management

A briefing on time management was organized to help participants understand the importance of effective time management and develop strategies to prioritize tasks, set goals, and manage their time efficiently. The workshop included interactive sessions, group discussions, and exercises like managing their daily routine.

Decision-Making Skills

Participants were provided with training on decision-making skills. The training focused on techniques for analyzing options, considering different perspectives, and making informed decisions. Practical exercises and case studies were utilized to enhance their decision-making abilities.

Communication and Conflict Resolution Workshop

A short session on effective communication and conflict resolution was conducted to improve participants' interpersonal skills. The workshop emphasized active listening, assertive communication, and constructive conflict resolution techniques. Group discussions were used to practice these skills.

Leadership Development

A leadership development plan was designed to empower participants to take on leadership roles within their families and the community. The program included sessions on leadership styles, delegation, team building, and motivation. Participants were encouraged to apply these skills in their personal lives and community engagements.

Financial Literacy Sessions

Sessions on financial literacy were conducted to provide participants with essential knowledge and skills related to personal finance management. Topics covered included budgeting, saving, investing, and debt management. Practical tips and resources were shared to help participants achieve financial independence and security.

Self-Care and Well-being Briefing

A short lecture on self-care and well-being was conducted to highlight the importance of taking care of one's physical and mental health. Participants learned strategies for stress management, relaxation techniques, and the importance of work-life balance. The workshop also addressed the significance of pursuing personal interests and hobbies.

Outcome: The feedback response was collected by student volunteers by recording their

response by interpreting the questionnaire via Google forms.

Participants reported feeling more confident in their ability to manage their personal lives and make informed decisions. They responded that they can now they feel better understanding and empathy with others, leading to reduced conflicts and improved communication within their families and the community.

The financial literacy sessions equipped participants with practical knowledge and skills to manage their finances effectively. Many participants reported implementing budgeting techniques and adopting better financial habits, leading to improved financial well-being. The session on self-care and well-being encouraged participants to prioritize their physical and mental health. Participants reported they will adopt self-care practices such as regular exercise, relaxation techniques, and pursuing personal interests, leading to improved overall well-being.

Conclusion: The extension activity on managerial skills among female residents of the village successfully empowered participants to enhance their managerial capabilities and effectively manage their personal lives. The acquired skills in time management, decision-making, communication, leadership, financial literacy, and self-care will contribute to their personal growth, well-being, and positive impact on their families and the community. Continued support and follow-up activities are recommended to sustain and reinforce these skills among the participants.

SOHMCT in collaboration with KEIC organized an entrepreneurship event on "How to open a successful coffee shop".

2nd May 2023, the School of Hotel Management and Catering Technology in collaboration with KEIC organized an entrepreneurship event on "How to open a successful coffee shop", at Swagat Restaurant. The resource person for the event was Mr. Jeetender Rehal. Mr. Jeetender is a very Passionate Barista, coffee producer and founder of DEEP RED COFFEE. He is working with Coffee, QSR and Hospitality industry from more than 20 years. He is the winner of title 'India Champion 2008' and The Most Creative Drink in India -2008" represented his country in London in year 2008 on

entrepreneurship spirit with students, the topics discussed were develop your own concept, identifying target market, coffee shop costs financial projection, Coffee shop Budget, best coffee shop location, coffee shop property lease, various commercial equipment required training barista staff and especially how to build a unique memorable Coffee Brand to establish a profitable Coffee Shop.

behalf of UK's best Coffee Chain. During his professional tenure he has opened more than 100 outlets and also trained more than 300 Baristas in India and abroad for International Brands and standalone projects. Mr. Jeetender has shared his

The whole event was aimed to provide students with knowledge about opening your business. Student gained confidence to convert their own unique idea into their venture of opening their own coffee.

SOHMCT conducted a workshop in collaboration with Roseate hotels titled "Quality Control In Hospitality industry with Special Reference to Kitchens"

School of Hotel Management and Catering Technology conducted a workshop in collaboration with Roseate hotels titled " Quality Control In Hospitality industry with Special Reference to Kitchens" The session was conducted by Ms. Shivani Pathania, Cluster Director Hygiene, Roseate Hotels. She spoke to the students and explained the importance of Hygiene in Kitchens both professionally and personally, she discussed about the career opportunities in this area and had a long discussion regarding the dos

and don'ts in hotel management Kitchens, restaurants, receiving areas, etc.

The session was very fruitful for the students to understand the importance of hospitality industry.

Once the session was finished and post the QnA, Ms. Shivani went for an inspection to the C block Block Cafeteria Kitchen and took the students along with her for the same, in the inspection she pointed out all the areas that needed improvement and made sure to explain to the students that how to the HACCP standards were

not being in the kitchen and what to do in such cases. Post the workshop the students had a fruitful QnA round with Ms. Shivani and then they enthusiastically participated in the Kitchens' inspection and understood the areas where improvement is required.

Farewell 2K23

2nd June 2023, SJMC held grand farewell for the final year Bachelors and Masters students at dance room of the C-Block in K.R. Mangalam University. The juniors and faculty members of the department came together to arrange the event. All the students played a significant role in the farewell, dedicating their efforts to ensure the smooth execution of all activities. The event commenced with the hosts extending a warm welcome to the outgoing batch, followed by BA (JMC) first-year student Garima Setia's solo dance performance. The seniors, in turn, walked the ramp and reminisced about their cherished moments during their college days. Following that, the first-year MA (JMC) girls

showcased their talents through a captivating group dance. The seniors were then made to participate in a question answer session by the anchors and teachers about their inspirations and themselves. The last segment was the title announcement for every senior and the announcements were accompanied by a specific song that was fitting to it. Praveena from final year MAJMC and Ankit from final year BAJMC were Ms. And Mr. Farewell of the department. The event was concluded with a DJ session where students danced their heart out to the songs being played. All the students and faculty members then proceeded for lunch.

SJMC organized Inter University Poster Making Competition on Gender Equality with Mediaverse

02nd May 2023, School of Journalism and Mass Communication in association with Mediaverse organized Inter University Poster Making Competition on Gender Equality. The competition was judged by Dr. Sarina Ravi Mehra, Assistant Professor, SJMC and Dr. Padmini Kaul Assistant Professor, SOHS. The Event started with the welcome words of Prof. (Dr.) Neeraj Khattri, Dean School of Journalism and Mass Communication. He stated that gender equality is the most crucial factor of our society and need of the hour. He furthermore emphasized that the Gender equality needs to be

acknowledged and every human being needs to be acknowledged for their contribution in the society, irrespective of the gender. The contribution of women in the society had been neglected since ages but now with the consistent efforts women are leading the nation. There are number of students from different schools

participated in the competition and showcased their creativity on the paper with help of pencil and colours.

Winners of the competition: Ms. Shruti (SOMC) Bagged 1st Position, 2nd Position secured by Ms, Unnati Aggarwal (SOMC) and 3rd Position bagged by Ms.

Kanishka Bhandari (SJMC).

The goals of this competition were to educate and aware students about gender equality and related issues. This competition was attended by all the faculty members and students of SJMC along with different participation from others Schools of University.

SJMC conducted Short film making competition on "Cultural Harmony in India

Students of BA(JMC) under the guidance of Ms. Aditi Agarwal, Assistant Professor prepared a documentary on "Cultural Harmony in India." Niharika, a student from the BA (JMC) program, undertook the responsibility of crafting a compelling script for the documentary. Yashoda from the BA (JMC) program took charge of recording the voice-over, which played a crucial role in providing explanations and insights throughout the documentary. Divyanshu a student from the BA

(JMC) program, travelled to prominent locations such as Vrindavan, Kashi, and other parts of Uttar Pradesh to capture footage of festival celebrations. His efforts in visually documenting the vibrant moments and cultural practices added authenticity and depth to the documentary. The primary focus of the documentary was to highlight cultural harmony through various festivals celebrated in Uttar Pradesh. Festivals such as Holi, Diwali and Eid were showcased to demonstrate how these celebrations bring

people from diverse backgrounds together, fostering cultural unity. Lastly, the students took on the task of editing the documentary. Their meticulous efforts in assembling the recorded footage, voice-over, and other audiovisual elements resulted in a cohesive and visually captivating final production. The collaborative efforts of Ms. Aditi Agarwal (Assistant Professor), Niharika, Divyanshu, and Yashoda of BA (JMC) successfully created a thought-provoking documentary on cultural harmony in India.

SOAD organized Extension activity on Women in Agriculture

20th April 2023, School of Agricultural Sciences, K.R. Mangalam University, Gurugram organized an extension activity on women in agriculture at Bhondsi village. The session started with the welcome note by Dr.S.S.Sharma, Dean SOAS and he talked about role of women in agriculture and how they are backbone of agricultural workforce. Rural women perform numerous labor-intensive jobs such as weeding, hoeing, grass cutting, picking, separation of seeds, keeping of livestock and its other associated activities like milk processing, etc. The event was coordinated by Dr. Ambika Bhandari (Assistant Professor - SOAS) .She gave an informative lecture on the role of women in horticulture crops which can enhance the livelihood and financial security of farmers. She also explained how Kitchen

gardening can help women to develop proficiency in vegetable cultivation to some extent, which in turn helps them become better home and environment managers and meet the needs of their families more easily and economically. This enhances their status within the family and in the society at large as well.

Kitchen gardens serve as an eco-friendly and sustainable agricultural practices improve food security and enhance economic growth of rural households. In times of increasing food prices, the kitchen gardening practice has the potential to directly address the

areas of nutrition and food security, income generation and an alternate livelihood creation for the household as well as empowerment of women, in the long run,

in rural areas of Haryana.

Women of the village also interacted with the faculty members and students and gave information about the crops they are growing in their fields, which kind of diseases and pest affect their crops the most. They also discussed about strong socio-cultural barriers which curtail their freedom of making social and economic choices. As small families become the norm of the day, women might face obstacles in terms of limited mobility due to family responsibility, and socio-cultural restrictions in their quest for socio-economic development.

SOHMCT organized Extension Activity for villagers- Clean and hygienic practice in Kitchen

21st April 2023, SOHMCT organized an Extension Activity-2. The purpose of this activity was to spread awareness of Clean and hygienic practice in Kitchen. In the second phase of the activity 10-15 women of the village attended the session in Anganbadi at village Garhi Bazidpur chaupal. Volunteers of Red Cross Society and students of SOHMCT collaborated and spread the awareness about importance of

personal-hygiene and cleanliness in kitchen. Volunteers enlighten the women about the hazards can occur due to unhygienic practices they also spread the knowledge of precautions can be followed to avoid food poisoning and contamination. At the end women of the village invited volunteers to visit their kitchen and let them observe the area of improvement. The students and coordinator delivered an interactive session for

women. Most of them are not practicing covid precautions, especially in the kitchen. The students further continued to explain to the residents about the uses of cleanliness and how to follow this practice on a regular basis. They also shared their experience and the challenges they are facing in maintaining cleanliness.

SOAS organized group discussion on 'Handling of Livestock Diseases' on the occasion of World Veterinary Day

10th May 2023, The School of Agricultural Science (SOAS) organized a group discussion program entitled "Handling of Livestock Diseases" on the occasion of "World Veterinary Day". The activity was coordinated by Dr. Deepak Kumar (Assistant Professor) SOAS. There were 27 Students along with faculty members of SOAS participated in the group discussion. Dr. S.S. Sharma (Dean, SOAS) and Dr. Deepak Kumar explained and discussed the major livestock disease, symptoms and their management. Students got knowledge about the bacterial (anthrax, hemorrhagic, Septicemia, black quarter, bovine tuberculosis), viral (foot and mouth diseases), Metabolic (milk fever, bloats mastitis), Parasitic (bovine Babesiosis) etc. livestock's diseases. Further students got information about how we can manage all above said diseases through local remedies and

through the vaccination programme initiated by government for rural areas. The faculty members Dr. Neha Shanna, Dr. Ambika Bhandari, Dr. Parita Ms. Priyanshu Choubey, SOAS also expresses their view on livestock disease management. Organizing such group discussion helps students and faculty members understand and managing their house animal diseases control. Dr. S.S. Sharma, Dean (SOAS) also advised all the participants to spread this valuable information to the social community also.

SOAD department organized Workshop on "Role of Agri- Journalism"

19th May 2023, School of Agricultural Sciences successfully organized a workshop on the "Role of Agri Journalism". The session was conducted by Dr. Meenakshi Gujral (Associate Professor, SOMC, KRMU). The participants were taught about the role of agricultural journalists in communicating news and information to farmers, officers, and other stakeholders. Agricultural Journalists are very helpful to undertake mass campaigns on agricultural programs, schemes, technologies, pest control, and marketing issues especially when time is very short and coverage is more. Dr. Meenakshi, explained to the students that Agri-Journalism is otherwise known as Farm journalism and it plays great role in communication with farm people, homemakers, etc. Newspaper stories, magazine article, leaflets, pamphlets, bulletins, circular letters, wall newspapers and radio scripts are increasingly being written by the extension staff and read or listened to. The written work is helping to

make advisory work with farm people more interesting. It covers a wide range of subject areas, assessing all stages from agricultural research and production to processing, marketing, consumption, nutrition and health. The training of agriculture journalist is similar to traditional journalist, except that they bring with them an understanding of agricultural systems. Thus, agricultural journalism is an applied theoretical field which is slowly emerging as a rewarding career option. The word journalism is derived from Journal which means a daily register or a diary. Thus, Journalism means the communication of information regarding the events of day through written words, sounds or pictures.

Principles of Agri- Journalism
Our purpose in writing is to communicate the information. Therefore, our first consideration is our reader audience. If you were writing for a scientific paper, you would use a vocabulary and style different from what you would use when writing for the general

public. How clearly you communicate information to average readers depends on how well you select, sift and sort your facts.

Nature of Agri- Journalism

Journalism is the timely reporting of events at the local, regional, national and international levels. Reporting involves the gathering of information through interviewing and research, the results of which are turned into fair and balanced story for publication or for television or radio broadcast. Distribution of news and views about the society. Additionally, the students indulged in a simulative fanner journalist interactive session. They were divided into groups and were given different situations where they enacted as differently, one of them was a reporter while others were media person, camera man, farmers, other people from the village and so on. The workshop continued where the students enacted in their groups and experienced the real time interaction while learning the entire process with the principle and emotions behind it.

SJMC organised "Training Session on Code of Conduct for students"

23rd May 2023, SJMC organised training session on the Code of Conduct for the students. The session was conducted by Mr. Ritwik Ghosh, Assistant Professor, SJMC, KRMU, who is an expert in the field of journalism and media ethics. The session began with an introduction and welcome address, setting the tone for the importance of ethics and professionalism in journalism and mass communication. Mr Ghosh emphasized the significance of a Code of Conduct as a guiding framework that helps

professionals navigate complex ethical dilemmas and maintain public trust. The key elements of the Code of

Conduct were then highlighted, focusing on areas such as accuracy, fairness, accountability, independence, and transparency. Also how the students should conduct themselves in the University premise and as professionals outside (Photo 1). Ethical decision-making was another crucial aspect covered during the training session. The trainer discussed to enhance practical understanding, case studies were discussed, allowing the students to understand and evaluate the Code of Conduct and ethical principles to real-world scenarios.

SJMC organises Training Program for Faculty on Professional Ethics

29th April 2023, School of Journalism and Mass Communication organized a training program for faculty on professional ethics. The session was conducted by Prof. (Dr.) Neeraj Khattri, Dean, SJMC and coordinated by Mr. Ritwik Ghosh, Assistant Professor, SJMC.

Professional ethics is a critical aspect of teaching, and faculty members should receive training

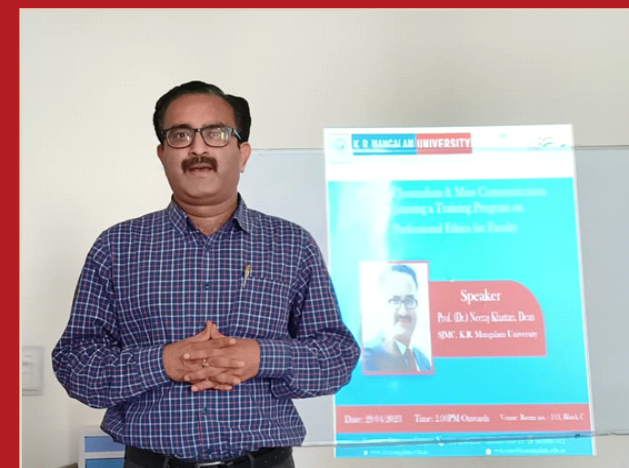

to ensure they conduct themselves in an ethical and professional manner. The training program was designed to equip the faculty members with the knowledge and skills required to maintain ethical practices in their profession. The session began with the introduction of professional ethics, their importance, and consequences of unethical

behavior and how to maintain the professional ethics.

The training program on professional ethics conducted by the Dean of the School was an important step in ensuring that faculty members conduct themselves

in an ethical and professional manner. By providing the necessary knowledge, the program helped faculty members make ethical decisions and maintain professional standards, which can create a positive learning environment that promotes student success and academic excellence. It is recommended that such training be conducted periodically to ensure that faculty members remain up-to-date on the latest ethical guidelines and standards.

By completing this training, faculty members can create a positive learning environment that promotes student success and academic excellence. All the faculty members of SJMC attended the training program.

SJMC Conduct FDP on "Research: Statistics and Digital Tools (MS Excel)"

The Faculty Development Program will address research statistics and digital tools of MS Excel over the course of a single week. Eminent academics and practitioners in the field of the respective area will lead the programme. All the faculty members and research scholars of School of Journalism and Mass Communication and other Schools of KR Mangalam University will participate in the program, which will be held in June, 2023. The FDP's goal is to equip faculty members with the necessary skills and knowledge to effectively use the various digital tools available in Microsoft Excel and research statistics.

Programme Objective:

1. Enhancing faculty members' ability to use Excel for organizing and analysing data and basics of research statistics and statistical operations, 2. Introducing faculty members to advanced features and functions of Excel, such as macros, pivot tables, and data visualization tools, 3. Enabling faculty members to use Excel to create more dynamic and interactive learning materials, such as charts, graphs, and other visual aids, 4. Providing faculty members with hands-on training and practice in using digital tools in Excel to create effective teaching and learning resources, 5. Encouraging faculty members to incorporate digital tools in their teaching practices to enhance student engagement and learning outcomes.

Day 1-The programme started with an opening address by the Dean Prof. Dr. Neeraj Khattri, who emphasized the importance of research in academia and the need for faculty members to be equipped with the latest research tools. This was followed by a resource person Mr. Shivam Saraswat, Assistant Professor, SOET, who provided an overview of the fundamental concepts of MS Excel.

The first day of the program was dedicated to introducing participants to the key concepts of research methodology, statistics, and the application of MS Excel in data analysis. The day began with a warm welcome and introduction to the program's objectives and structure. Participants were given an overview of the program's content and the importance of research, statistics, and digital tools in their professional development.

Day 2- Mr. Shivam Saraswat, an experienced expert in the field of data analysis and spread sheet applications. He highlighted the importance of MS Excel as a powerful tool for data analysis, management, and decision-making. Mr. Saraswat elaborated on arithmetic operators (+, -, *, /), comparison operators (<, >, =, <=, >=, <>), logical operators (AND, OR, NOT), and reference operators. He emphasized the significance of using these operators effectively to perform various calculations and comparisons within Excel.

Day 3-The focus of the day was on the topic "Basic Research - Statistics," which plays a crucial role in various research methodologies and data analysis techniques. The next segment focused on introducing key statistical concepts and terminology. Prof. Manchanda explained concepts such as population, sample, variables, measurement scales, and measures of central tendency (mean, median, mode) and dispersion (range, variance, standard deviation). Participants were encouraged to grasp these fundamental concepts as the building blocks of statistical analysis.

Day 4-The session focused on the topic "Statistical Operations in Research," which delved into the application of statistical techniques and operations to analyse and interpret research

data. The session was conducted by the esteemed presenter, Prof. (Dr.) S.C Manchanda, a renowned expert in the field of research methodology and statistical analysis. He emphasized the importance of statistical operations in research, enabling researchers to draw meaningful conclusions and make informed decisions based on empirical evidence. He explained the principles of hypothesis testing, significance levels, p-values, and the interpretation of test results.

Day 5- The focus of the day was on the topic "Data Validation, Pivot Table, and Charts," which explored techniques to ensure data accuracy, analyze data using pivot tables, and create visually appealing charts and graphs for effective data presentation. She highlighted the importance of data validation, pivot tables, and charts in data analysis and effective communication of research findings. The session began with an introduction to data validation, which ensures the accuracy and reliability of data. Dr. Bansal explained different types of data validation rules, such as range, list, and custom validation.

Day 6- The focus of the day was on the topic "Web Scraping and Data Wrangling," which explored techniques to extract data from websites and process it for further analysis. Dr. Rajput, an expert in the field of data science and analytics, shared his expertise and insights with the participants. Dr. Rajput explained the basics of web scraping, including HTML structure, CSS selectors, and XPath expressions. Participants gained an understanding of the ethical considerations and legal aspects associated with web scraping. He emphasized the increasing importance of web scraping and data wrangling in extracting valuable information from online sources and preparing it for analysis.

SOET Conducted a session on career counseling- Alumni Talk Series on "Becoming a Resilient Educator through Time Management Skills"

17th April, 2023 School of Education, K.R. Mangalam University conducted a session on Career Counselling as a part of its Alumni talk Series. The topic of the talk was "Becoming a Resilient Educator through Time Management Skills". To connect with the students of the School of Education (B.Ed. and B.El.Ed), a B.Ed. Alumni (Batch 2018-20), Ms. Kriti Khandelwal was invited. She is working as a TGT teacher at L f. Kataria Memorial School, Gurugram. The session began with engaging the participants in an activity. In the activity, the participants were given certain sentences to read and deliberate (Picture 1). During her talk, she focused on some of the essentials to manage time and how a teacher can take care of the needs of learners in a given time period (Picture 2). She then focused on how the role of the teacher is expanding and besides meeting the needs of learners; a

teacher has to take care of the paper work and main ta i n the documents related to teaching and learning. She then focused upon how best a teacher can manage and create a balance between teaching an d documentation.

She then introduced the concept of Resilience to the participants and emphasized how a teacher can complete the work timely. She

discussed some of the essential steps where an individual can plan and manage time and suggested some of the best possible ways to manage time. She ended the session with a quote "Run your time before the time runs public! Be resilient in your approach". The participants discussed their day- to day challenges with her and she answered and discussed their queries.

At the end of session, Dr. Jena gave a formal vote of thanks to the management and leadership, guest speaker, technical team, organizers and participants and appreciated the efforts of Ms. Kriti Khandelwal. Ms. Sanya Sharma and Ms. Akshina was the student Coordinators of the event. The Faculty Coordinators of the session were Dr. Kanchan Khatrija and Dr. Anshul Saluja.

Fashion Design Department organized an extension activity "Promoting Skill Development and Empowerment Among Young Women"

School of Architecture & Design - Fashion Design Department organized an extension activity in Lakhawas village with the goal of promoting skill development and empowerment among young women. The activity focused on teaching stitching and embroidery techniques. Under the guidance of the Fashion Design students and faculty members, Ms. Yashasvi Rajawat and Ms. Akanksha Kumawat, participants were introduced to fundamental stitching techniques like running stitch,

backstitch, and blanket stitch.

To facilitate their learning, the participants received sewing kits containing needles, threads, and fabric. Through step-by-step demonstrations and hands-on practice on fabric swatches, the participants successfully stitched products and gained a c o m p r e h e n s i v e understanding of various embroidery techniques. The

activity achieved its objective of empowering the young women and fostering their skill development.

SOET hosted workshop on "Intellectual Property Rights, Self-Employment, and Entrepreneurship" in collaboration KEIC

5th April 2023, The School of Education at K.R. Mangalam University hosted a Capacity development Workshop on "Intellectual Property Rights, Self-Employment, and Entrepreneurship" in collaboration with K.R. Mangalam Entrepreneurship and Incubation Centre (KEIC). Workshop began with the welcome address by Prof. Tania Gupta, Dean, and School of Education. Mr. Saket Bihari, Assistant Professor, School of Education gave a brief about the workshop. Dr. Anshul Saluja, Assistant Professor, School of Education introduced the guest speaker. The workshop featured a guest speaker, Ms. Pooja a Kumar, "who is a Registered Patent Agent (Govt. of India) and Founder; Director: Innove Intellects LLP. Ms. Kumar introduced the students to the concepts of patents, copyrights, and trademark's, and how they can be used to create employment opportunities. She explored that Intellectual Property Rights (IPR) are legal Rights that protect creations of the mind, such as inventions, literary and artistic works. Symbols, names, images

and design used in commerce. While discussing on patent she concluded th.at a patent is legal document that gives an inventor the right to exclude others from making, using, selling, and importing an invention for a certain period. Patents protect inventions that are new, non-obvious, and useful. She also highlighted on copyrights. Copyrights protect original literary, artistic, and musical works, as well as software and databases. The copyright owner has the exclusive right to reproduce, distribute, and display the copyrighted work. She explained very insightfully thoughts on trademarks. Trademarks protect brands, logos and other symbols used to identify products or services. Trademark owners can prevent others from using similar marks that could cause confusion among consumers. She emphasized on trade secrets. Trade secrets are confidential information that gives a company a competitive advantage. Trade secrets can include formulas, recipes, customer lists, and manufacturing processes. Overall, IPR plays a crucial role in protecting

innovation and creativity, promoting economic growth, and encouraging investment in research and development. The session also included interactive discussions and Q&A sessions between Ms. Kumar, faculty, and students. The session ended with a token of appreciation presented to Ms. Kumar and a formal vote of thanks from Dr. Anshika Prakash, Chairperson of KEIC. The speaker was also presented with a token of appreciation from organizers. The student coordinators for the session were Ms. Muskan Dagar and Ms. Chetna, who are student-teachers at the School of Education at K.R: Mangalam University.

SOHMCT organized seminar on "Harmonizing the foods of the country" with the theme of Divided by states, United by Mangoes.

22nd May 2023, the school of Hotel management and Catering Technology of K.R. Mangalam University Conducted a seminar on "Harmonizing the foods of the country" with the theme of Divided by states, United by Mangoes. 6 teams participated in total, in which the students of SOHMCT cooked and presented all over the country and making sure to use mangoes in one or the other

form in their presentation. The seminar helped the students understand the common ingredients used in food everywhere in the country, the cooking techniques of different parts of the country and then finally creating new recipes keeping Mangoes as the main ingredient. The sessions in the seminar were over seen by Dr. Anjana Singh, Dean, SOHMCT and

Chef Virendra, Assistant Professor, SOHMCT and the event was coordinated by Ms. Jyoti Sehrawat, School Coordinator, SOHMCT. The winners of the sessions of the Seminar were: Ashutosh and Mr. Yogesh from 1st year, their menu was: Mango Gazpacho, Mango Puri with Tandoori Prawns, Mango Sheera, Amarkhan.

SOET organized guest lecture on Constitutional obligations: values, rights, duties and responsibilities of citizens

20th April, 2023, School of Engineering and Technology, K.R. Mangalam University, Gurugram organized a one-day educational session for undergraduate students of K.R. Mangalam University on April 20, 2023. The lecture on Constitutional obligations by Ms. Gargi Singh explores the crucial aspects of citizenship, emphasizing the values, rights, duties and responsibilities present within a constitution. Its aims to provide a comprehensive understanding of the fundamental principles that guide the relationship between the state and its citizens. She also insisted that by recognizing these obligations, citizens can actively participate in shaping and uploading a just and inclusive society. The lecture commenced by highlighting the significance of constitutional values. These values serve as the foundation for a democratic society and

include principles such as equality, justice, liberty, fraternity, and secularism. She also emphasized the importance of rights granted to citizens in a constitution. These rights may include but are not limited to freedom of speech, expression, religion, assembly, and the right to life, liberty, and property. Citizens have the responsibility to exercise their rights responsibly while respecting the rights of others. They can advocate for their rights, challenge injustices, and actively participate in the democratic process. The lecture highlighted the importance of responsible citizenship, such as promoting social justice, respecting diversity, preserving the environment, volunteering, and actively engaging in civil society initiatives.

During the lecture, Ms. Gargi also provides historical and contemporary examples to illustrate the practical application

of these constitutional obligations. Additionally, fostering an interactive environment where participants asked questions and engage in discussions to deepen their understanding. The outcome of this lecture on constitutional obligations was to educate the students about the values, rights, duties, and responsibilities of citizens within a constitutional framework. To explain everyone that how these values shape the principles and functioning of constitutional democracy. To highlight the civic duties and responsibilities that citizens are expected to fulfill. These may include obeying laws, paying taxes, serving on juries, and defending the country when required and emphasize the significance of active participation and responsible citizenship in upholding the social contract.

SOET organized Youth Talk students speech Competition on Language and Communication Skill

3rd May 2023, SOET organized a Youth Talk student's speech Competition on Language and Communication Skill. The event was divided into three stages namely, extempore, story-telling and group discussion. In this event students to express their ideas, through an inspiring and powerful speech to their peers, thus fostering leadership capabilities among college students. 45 Under-graduate and Post-graduate students participated in the event and expressed their views on topics such as Mental Health, SDG goals, Climate change, Women Empowerment, GST and Social Networking. The group discussion round was based on the topic "The impact of AI on jobs and society" wherein the students expressed their views on the jobs that are being transformed due to the advancement of AI. They also expressed their concern regarding AI becoming stronger with each day passing and may become a thread to humans not only to the jobs. The

event was judged by Dr. Meenu, Dr. Swati, Mr. Rahul, Mr. Yash and Mr. Laxman Singh Rathore were awarded first, second and third

position respectively. Students expressed their views on the topics provided during the event. The students demonstrated the skills of thinking clearly/rationally, speaking persuasively and listening to the opinions of others critically and constructively.

SOET in collaboration with Computer Society of India organized web based competition on Code Cracker Contest

May 02, 2023, School of Engineering and Technology in collaboration with Computer Society of India has organized offline web based competition "Coding Cracker Contest". The aim of the event was to encourage students about web development and keeping themselves up to date with IT field. It also provides them with the opportunity to demonstrate their learning experience. The prime objective of the event was to inculcate in the minds of students the importance of full stack web development and to provide them a platform to fulfill their industrial needs by enhancing their skills in web development.

In the event a total of 32 students registered and took part in the competition. The event comprises of creating a frontend UI/UX design to show their creative designing skills. As per the rules of the event, students

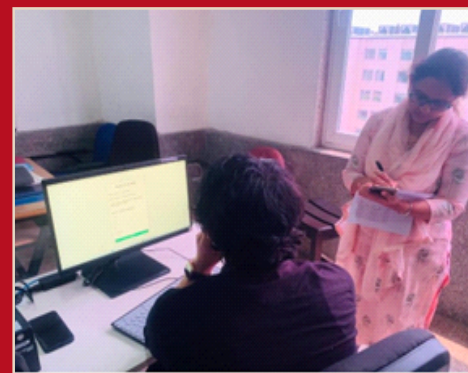

took part in solo or in teams of four each. Each team has to build a frontend website as per the problem statement assigned to them within a period of time frame.

Activity Outcome:

It was an exhilarating experience for students. The outcomes of the event are as follows:

- During the event students were able to gain knowledge about many new technology like react.js, vanilla.js and git deployment.
- This provides opportunity for the students to demonstrate their learning experience.
- Encourages team building among students.

The event thus turned out to be successful by fulfilling its aim of imparting web development knowledge in an interesting way to the students which will remain fresh in their memories for long. The following winners were

identified- Team including Rhythm Sharma, Ayush Kumar and Tanuj Singh won 1st prize with the cash prize of Rs 2500, followed by Laxman Singh and Praveen Kumar jointly shared the 2nd prize with the cash prize of Rs 750 each and Rahul Raj won the 3rd prize with the cash prize of Rs 1000. The event was an overall success. Students that took part had an overall positive experience with the event. The contest renewed a competitive spirit among students whilst maintaining a healthy environment for learning and development.

SOET Conduct an awareness program on Computer Literacy at Govt Sr. School (Boys), Bhondsi Village, Haryana with NSS

April 20, 2023 School of Engineering and Technology, K. R. Mangalam University, Gurugram organized a one day educational session for Govt. Sr. Sec. School, Bhondsi. Students from the BCA -II semester visited the school along with faculties, Dr. Pallavi Pandey and Ms. Yogita Yashveer Raghav. The visit proved to be fruitful and an entertaining session to arouse curiosity in the minds of students for usage of computer and their first stepping stones in technical field. Students learnt about basic

computer fundamentals, Microsoft office including excel, word and PowerPoint, Gmail, WhatsApp, Social Media, Online Shopping, and Online Payment methods, along with some crucial principles of cyber security. The students of the school were taken care of one-on-one by the students of the university. This made it easier for them to get to know people as well as share their expertise and talents. The coordinators of the school were extremely supportive, helpful, and

hospitable. Towards the end, the students of the school appreciated the initiative taken by K R Mangalam University for this entire camp, along with admitting that they benefited from this. Moreover, they also welcomed the university to continue organizing such awareness camps in the future. In the end, the students of the university acknowledged that they were truly satisfied with having an opportunity to increase their knowledge and skills.

SOED Organized Sensitization Programme on "Safety and Security of Girls & Women at Workplace"

The inaugural speech was delivered by Dr. Tania Gupta, the Dean of the School of Education. She emphasized the university's commitment to promoting a safe and secure environment for all. She expressed the importance of such initiatives in fostering a society where girls and women can thrive professionally without any hindrances. Dr. Promila Dabas, emphasized several key points during the sensitization programme on the safety and security of girls and women in the workplace. These included the importance of creating awareness, promoting gender equality, addressing challenges, ensuring a safe working environment, fostering inclusivity, and empowering girls and women. She stressed the need for proper awareness among employees, implementing wellness programs, conducting awareness programs for stakeholders, focusing on psychological health, offering self-defense classes, and enhancing security awareness. Overall, the programme aimed to shed light on these critical issues and encourage proactive measures to create a safer and more supportive workplace for all.

The programme concluded with a heartfelt vote of thanks delivered by Mr. Saket Bihari. He expressed gratitude towards the esteemed speakers and participants for their active involvement in the sensitization programme. He also emphasized the need for continuous efforts and collaborations to ensure the safety and security of girls and women in workplaces across the count.

The sensitization programme received overwhelming participation and positive feedback from all attendees. The event served as a platform for

open discussions, raising awareness, and creating a network of like minded individuals committed to driving positive change in the workplace. Event coordinator Dr. Shikha and student coordinator Soniya and Sangita also contributed in the successful organization of the event. The programme aimed to raise awareness and promote a safe and secure environment for girls and women in various workplaces. With the increasing importance of gender equality and the need for safe working spaces, the event provided valuable insights and practical strategies to address these issues. She addressed the attendees' comprising students, faculty members, and professionals from various schools of KRMU. Her expertise and experience in women's empowerment and workplace safety added immense value to the event. Dr. Dabas shared her

insights on the challenges faced by girls and women in the workplace and highlighted the significance of creating a culture of inclusivity and respect. Participants gained a deeper understanding of gender-based violence, harassment, and discrimination at work. They were equipped with practical knowledge on recognizing and addressing such issues, promoting a culture of respect and inclusivity. The programme fostered a sense of empowerment among girls and women, encouraging them to assert their rights and seek support when needed. Additionally, it facilitated dialogue and collaboration among employees, management, and relevant stakeholders, leading to the implementation of policies and measures to ensure the safety and security of girls and women in the workplace.

SBAS Conduct Seminar on Education: A Tool for Awareness on Gender Equality

06th April 2023, The School of Basic and Applied Sciences (SBAS), K.R. Mangalam University, Sohna Road (Gurugram) organised an Intra- University Seminar on Gender Equity for the students. Prof. Mehraj Uddin Mir was the resource person. Prof. Mir started the lecture by explaining the difference between equity and equality. Then he explained the importance of women in society and used his legal knowledge to make all the students, along with the faculty coordinators, understand the rights allocated to men and women by the constitution. He spoke on various aspects of Gender Equity. In India, girls and boys see gender inequality in their homes and communities every day - in textbooks, in movies, in the media and among the men and women who provide their care and support. Some Indian women re-global leaders and powerful voices in diverse fields but most women and girls in India do not fully enjoy many of their rights due to deeply entrenched patriarchal views, norms, traditions and structures.

Empowering girls requires focused investment and collaboration. Providing girls with the services and safety, education and skills they need in daily life can reduce the risks they face and enable them to fully develop and contribute to India's growth. Girls have an especially difficult time accessing life-saving resources, information and social networks in their daily life. Access to programmes specifically tailored to the needs of girls - with a focus on education

and developing life skills, ending violence and incorporating the needs and contributions of girls from vulnerable groups, including those with disabilities, can strengthen the resilience of millions of girls. Long-term solutions designed with and for girls can further strengthen this resilience and be a pathway of transformational and lifelong opportunity for girls. All girls, especially adolescent girls, need platforms to voice the challenges they face in everyday life and explore the solutions that work for them so they can build better futures for themselves and their communities. At the end of the event, the students were given multiple choice questions to assess their understanding of the subject from the seminar. The lecture helped the students to understand the difference between equity and equality. They also got aware with the various legal aspects of this subject. Every person deserves to reach her or his full potential, but gender inequalities in their lives and in the lives of those who care for them

hinder this reality. Prof Mir explained the students about the laws which are provided by the constitution of India in order to exercise these rights. The students enjoyed the lecture very much and also expressed their desire to be a part of such events on topics like right to education, consumer rights. How to reduce carbon footprint. People lifestyle how they should manage it, career

opportunities, how to improve your mental health, etc.

The lecture was well received and thoroughly enjoyed by the attendees. In the end, in a gesture to express our deepest gratitude to Prof. Mehraj Uddin Mir, a token of respect in the form of memento was presented to him by Dr. Meena Bhandari, Dean of School of Basic and Applied Sciences.

The session concluded with the affirmation that since the young generation is responsible for the future of women in India. It is their duty to get more aware and conscious about such topic. As said by Mahatma Gandhi, "If you educate a man you educate an individual, but if you educate a woman you educate an entire family". With this mind- set, we just hope that someday the perception of the society changes, and the right of all the girls and all the boys in India is on equal platform.

SOET organized an event on "How Technology contribute to world peace and Harmony"

School of Engineering and Technology of K.R. Mangalam University organized an event on "How Technology contributes to World Peace and Harmony" (International Day of Conscience) on 5th April 2023. Digital technologies provide peace builders with user-friendly, efficient and scalable tools that not only improve programming and communications, but can also create alternative infrastructures for peace challenging dominant conflict narratives and fostering positive communication and social cohesion between conflict

groups.

The benefits of Digital technologies - electronic tools, software, platforms, systems and devices that help generate, store and transfer data are playing an increasingly vital role in advancing peace building activities around the world. To promote students how increased connectivity has led to the development of powerful online communities, who are reshaping the social contract between state and citizenry and are providing key opportunities to build more inclusive and equitable societies. To promote students how technologies are being employed

by autocratic states and conflict actors for sophisticated methods of censorship, surveillance and dis/misinformation, which are creating new divisions and inciting violence that can manifest itself offline. Outcome: The use of technology for peace, otherwise known as 'peace tech', has grown in prominence over the last decade and has generated innovative tech-based solutions to tackle drivers of conflict and insecurity. Many people are working to build peace turned to technological tools, knowledge and resources to adapt their work in the changed global dynamic.

SBAS Organized "A Session to Improve Communication Skills for Better Future"

The School of Basic and Applied Sciences (SBAS), K.R. Mangalam University, Sohna Road (Gurugram), Haryana, India organised an Intra- University Seminar on "A Session to Improve Communication Skills for Better Future" for the students on 20th April 2023. Dr. Nidhie Saini from HCA H India was the resource person. Dr. Nidhie started the lecture very beautifully by explaining the common characteristics of famous and successful personalities from diverse fields like Barack Obama, Helen Keller, Shahrugh Khan etc. Then, she explained the importance of communications skills for a bright career. She spoke on various aspects of soft skills including written skills, public speaking, interpersonal skills, body language, negotiation skills etc. Having strong communication skills aids in all aspects of life - from professional to personal. These are even more important for students as they are going to start their career. Early every job posting contain the words "strong communication skills" or "effective communication skills." Good

communication improves clarity in the exchange of concepts, knowledge, and ideas while minimizing ambiguity.

Students were apprised about their existing strengths and weaknesses as well as the areas where they can work on their personal development. The session was concluded with an activity in which students participated with zeal. At the end of the event, the students were asked to fill feedback forms to assess their understanding of the topic from the seminar. The lecture was well received and thoroughly enjoyed by the attendees. In the end, in a gesture to express our deepest gratitude to the speaker Dr. Nidhie Saini, a token of respect in the form of memento was presented to her by Dr. Komal Yadav, Assistant Professor, School of Basic and Applied Sciences. The lecture helped the students to understand the importance of communication skills in building a successful career. They also got aware with the various types of soft skills like written skills, public speaking, interpersonal skills, body

language, negotiation skills etc.

Dr. Nidhie shared her own experience how she got inspired to write books along with her job of dental surgeon. The students enjoyed the lecture very much and also expressed their desire to be a part of such events on topics like career opportunities, personality development, how to reduce carbon footprint, and how to improve your mental health, etc. There is a very famous quote by Bret Morrison which says "Of all the life skills available to us, communication is perhaps the most empowering". With this motivation a session was conducted on "improving communication skills for better future". The speaker Dr. Nidhie Saini delivered a very interesting and engaging lecture on this topic to the students of K.R. Mangalam University. She concluded her talk with assigning students some very simple tasks like writing 10 things which they really like doing etc. The session culminated with a vote of thanks to the speaker for enlightening all the young and fresh minds of this generation.

SBAS Conduct Seminar on "Professional Ethics and their Implications in life"

16th May 2023, School of Basic and Applied Sciences (SBAS), K. R. Mangalam University Sohna Road (Gurugram) organized an intra-school Seminar on "Professional ethics and their implications in life. Prof. Diwan Singh Rawat from the University of Delhi, India, was the resource person. In this activity, 120 students were present. The main objective of the program was to raise the awareness about amazing techniques of Vedic mathematics among the students.

The event was started by Dr. Upanshu Gangwar, Coordinator of the event by giving brief introduction about the Speaker. Further, the speaker took over the session and started off by diving right into the topic 'A students' perspective on personal and professional ethics.' He emphasized that professional ethics are an extension of personal ethics. He also mentioned that ethics change from time to time and from situation to situation depending on the frame of reference. Something that is ethical in the one industry might

absolutely be unethical in the other industry, he added.

Further speaker extended their talk on research ethics which involves the application of fundamental ethical principles to research activities which include the design and implementation of research, respect towards society and others, the use of resources and research outputs, scientific misconduct and the regulation of research.

The session was very interesting and helpful for the students. In the end in a gesture to express our deepest gratitude to Prof. Diwan Singh Rawat, a token of respect in the form of memento presented to him by 'Dr. Meena Bhandari Dean of School of Basic and Applied

Sciences. The lecture helped students to clearly distinguish between personal and professional ethics. They also understand the role of professional codes of ethics, the difference between aspirational and disciplinary codes of ethics, and how professional codes may apply in their career. They learn to think critically about ethical issues, which are encountered first hand within a career, and apply personal and professional ethics to vexing moral decisions within specific professions. The session concluded with the traditional professional ethics literature, focusing on code, conduct and rational decision-making in difficult cases. Consideration is then given to what might be the implications for learning of shifting emphasis towards a more embedded conception of ethics in professional life, with a focus on the commitment and character of professional practitioners and the specificities of the contexts in which they work.

Sensitization Programme on Human Values and the Constitution of India

The School of Education organised a highly impactful sensitization programme on "Human Values and the Constitution of India" on May 30, 2023. The event was held on the University campus, and Dr. Dayal Sandhu, Assistant Professor (Education), Centre for Distance and Open Education, Jamia Millia Islamia, New Delhi, was the resource person for the programme. Dr. Dayal was welcomed and introduced by Ms. Shamiksha and Sulakhani, the student coordinators. During the session, many points were emphasized by the resource person, like the importance of

human values in the context of the constitution of India, appreciation of the core values enshrined in the constitution of India, and upholding and practicing Constitutional values in their day-to-day lives as individuals and citizens of India.

The programme aimed to raise awareness to promote the unity and integrity of the nation, the values enshrined in our constitution, and the all-round development of an individual by generating awareness about the elements of human value in our constitution. The programme concluded with a heartfelt vote of thanks delivered by Prof. Tania

Gupta, Dean, School of Education, and K. R. Mangalam University. She expressed her gratitude towards the esteemed speaker and appreciated the active participation of the participants. She also emphasized the need for continuous efforts and collaborations to ensure human values and the Constitution of India. The sensitization programme received an overwhelming response from the participants. Students also asked questions and were answered by the resource person enthusiastically.

School of Basic and Applied Sciences (SBAS) organized Seminar on "Professional Ethics for Teachers"

31st May 2023, School of Basic and Applied Sciences (SBAS) K. R. Mangalam University Sohna Road (Gurugram) organized an intra-school Seminar on "Professional Ethics for Teachers", Prof. Tania Gupta, Dean, School of Education from the K. R. Mangalam University was the resource person. In this Seminar, 13 faculties were present. The main objective of the program was to raise the awareness about amazing techniques of Vedic mathematics among the faculties.

The event was started by Dr. Pooja Vats, Coordinator of the event by giving brief introduction about the Speaker. Further, the speaker took over the session and started off by diving right into the topic 'A faculties' perspective on personal and professional ethics. She emphasized that professional ethics are an extension of personal ethics. She also mentioned that ethics change from time to time and from situation to situation depending on the frame of reference. Something that is ethical in the one industry might absolutely be unethical in the other industry, she added. Further speaker extended their talk on research ethics which involves the application of

Fundamental ethical principles to research activities which include the design and implementation of research, respect towards society and others, the use of resources and research outputs, scientific misconduct and the regulation of research. At the end of the event faculties were given multiple choice question to assess their understanding of the subject from the seminar.

The event was concluded by Dr. Suman Srivastava with vote of thanks to the Speaker and Audience. The session was very interesting and helpful for the faculties. In the end in a gesture to express our deepest gratitude to Prof. Tania Gupta, a token of respect in the form of a gift was presented to her by Dr. Meena Bhandari, Dean of School of Basic and Applied Sciences. The talk helped faculties to clearly distinguish between personal and professional ethics. They also understand the role of professional codes of ethics, the difference between aspirational and disciplinary codes of ethics, and how professional codes may

apply in their career. They learn to think critically about ethical issues, which are encountered first hand within a career, and apply personal and professional ethics to vexing moral decisions within specific professions.

The session concluded with the traditional professional ethics literature, focusing on codes, conduct and rational decision-making in difficult cases. Consideration is then given to what might be the implications for learning of shifting emphasis towards a more embedded conception of ethics in professional life, with a focus on the commitment and character of professional practitioners and the specificities of the contexts in which they work.

SOHMCT conduct session on Video Resume Making

18th May 2023, SOHMCT conducted a session on "Video Resume Making". It is the need of the hour for job aspirants to stand out from the crowd, since everyone is making written resumes, so to help our students become more prominent in the job market; they were taught how to make a video resume. The students recorded their video resumes, in the video they

recorded their introduction, their skills and what do they aspire to achieve in their lives. The final year students have sent both their written resumes and video resumes to different hotels for their job prospects. The students participated wholeheartedly in the session and all of them enthusiastically made their resumes.
